\$300 for the first two hours,
\$75 for each additional hour,
plus mileage to the location

The purchase of the equipment was made possible through the cooperative efforts of Seneca Conservation District and Seneca County's engineer, sewer district and ditch maintenance department with the assistance of an Ohio Soil and Water Conservation Commission Toolbox Grant. The grant proposal was a result of a collaborative effort between the agencies, Seneca County commissioners and Seneca County EMA to consolidate efforts to assist Seneca County residents.

Seneca County landowners have first priority when renting SCD equipment. Sales tax is added to all rentals and purchases. If you are tax exempt, please fill out a tax exempt form. For more information, call (419) 447-7073.

10-foot Great Plains Drill Rental Contract

\$15 per metered acre, \$150 minimum usage charge,
additional \$50 charge for equipment rental by a
non Seneca County landowner

I agree to cooperate with the Seneca Conservation District in scheduling equipment use with due consideration of other cooperators and weather.

I will transport the equipment on the road during daylight hours only. In the event the equipment is being transported after dark, I will be responsible to see that all required transport lights are being used and working properly. I agree to use the unit immediately, weather permitting, and upon completion of its use, call the Seneca Conservation District at (419) 447-7073 in order for them to notify the next cooperator of its availability.

I assume full liability and responsibility for damage to, or caused by, the unit (beyond normal wear) from the time I obtain the unit until secured by the next user or until returned to a storage point designated by the Seneca Conservation District. If damage occurs to the equipment during my rental period, I agree to contact Seneca Conservation District and work with them to get the equipment to the closest dealer for repair. Warranty parts broken or damaged during normal use will be repaired or replaced by Seneca Conservation District.

I understand it is my responsibility to set the drill for the proper seed and planting rates and to ensure that the rate and drill settings stay the same during my entire rental period. If Seneca Conservation District staff advises or assists me, I also know that they are not guaranteeing the proper amount of seed will be sown on the acreage I'm planting. I agree to not hold Seneca Conservation District staff or Board responsible for the seed costs or extra acres that might be required due to improper drill settings.

I agree I have inspected the equipment and find that the equipment is in good condition and operable. I agree to clean out the seed or incur an additional fee.

I agree to the following payment terms: NET 30 days. After 30 days, a service charge of 2% per month will be added. This is an actual annual percentage rate of 24%.

By signing below, the licensee of the equipment designated herein does hereby for itself, its heirs, executors, administrators, successors and assigns, agree to release, acquit, discharge, indemnify and save harmless, Seneca Conservation District and Seneca County, their employees, agents and assigns, all elected and appointed officials, both in their official and individual capacities, and their boards, employees, agents and assigns, from all loss, liability, damages, costs and expenses, including court costs and attorney's fees, resulting from any claim or action for personal injury or property damage arising from the use of said equipment. This indemnity shall survive delivery of the equipment under this contract.
